Annual Financial Statements for the year ended 31 December 2022

#### **Trustees' Responsibilities and Approval**

The Trustees are required to maintain adequate accounting records and are responsible for the content and integrity of the annual financial statements and related financial information included in this report. It is their responsibility to ensure that the annual financial statements fairly present the state of affairs of the Trust as at the end of the financial year and the results of its operations and cash flows for the period then ended, in conformity with International Financial Reporting Standards. The external auditors are engaged to express an independent opinion on the annual financial statements.

The annual financial statements are prepared in accordance with International Financial Reporting Standards and are based upon appropriate accounting policies consistently applied and supported by reasonable and prudent judgements and estimates.

The Trustees acknowledge that they are ultimately responsible for the system of internal financial control established by the Trust and place considerable importance on maintaining a strong control environment. To enable the Trustees to meet these responsibilities, the board of trustees sets standards for internal control aimed at reducing the risk of error or loss in a cost effective manner. The standards include the proper delegation of responsibilities within a clearly defined framework, effective accounting procedures and adequate segregation of duties to ensure an acceptable level of risk. These controls are monitored throughout the Trust and all employees are required to maintain the highest ethical standards in ensuring the Trust's business is conducted in a manner that in all reasonable circumstances is above reproach. The focus of risk management in the Trust is on identifying, assessing, managing and monitoring all known forms of risk across the Trust. While operating risk cannot be fully eliminated, the Trust endeavours to minimise it by ensuring that appropriate infrastructure, controls, systems and ethical behaviour are applied and managed within predetermined procedures and constraints.

The Trustees are of the opinion, based on the information and explanations given by management, that the system of internal control provides reasonable assurance that the financial records may be relied on for the preparation of the annual financial statements. However, any system of internal financial control can provide only reasonable, and not absolute, assurance against material misstatement or loss.

The Trustees have reviewed the Trust's cash flow forecast for the year to 31 December 2023 and, in light of this review and the current financial position, they are satisfied that the Trust has or had access to adequate resources to continue in operational existence for the foreseeable future.

The external auditors are responsible for independently auditing and reporting on the Trust's annual financial statements. The annual financial statements have been examined by the Trust's external auditors and their report is presented on pages 8 to 10.

The annual financial statements set out on pages 11 to 38, which have been prepared on the going concern basis, were approved by the board of directors on 03 April 2023 and were signed on their behalf by:

Njabulo Ndebele (Chair)

John McCall MacBain

John A. McCall Markani

Annual Financial Statements for the year ended 31 December 2022

## **Trustees' Report**

The Trustees have pleasure in submitting their report on the annual financial statements of The Mandela Rhodes Foundation Trust for the year ended 31 December 2022.

#### 1. Nature of business

The Mandela Rhodes Foundation Trust was formalised on 9 June 2003 as a joint initiative between the late Nelson Rolinlahla Mandela and the Rhodes Trustees (hereinafter jointly referred to as 'the Founders'). The Rhodes Trust pledged a benefaction over time of Ten Million Pounds Sterling (£10 000 000.00) for the purposes envisaged by the Trust Deed.

The central purpose of the Foundation is to build exceptional leadership in Africa. This objective is advanced through the implementation of programmes, the flagship programme being the Mandela Rhodes Scholarships, which became operational in 2005. Details of the programme are to be found in the foundation's annual yearbooks and on the website www.mandelarhodes.org. The Board of Trustees reviews strategy and implementation annually.

#### 2. Review of financial results and activities

Full details of the financial position, results of operations and cash flows of the Trust are set out in these annual financial statements.

## 3. Going concern

The Trustees believe that the Trust has adequate financial resources to continue in operation for the foreseeable future and accordingly the annual financial statements have been prepared on a going concern basis. The Trustees have satisfied themselves that the Trust is in a sound financial position and that it has sufficient liquid assets and together the cash flow forecast for the next 12 months to meet its foreseeable cash requirements. The Trustees are not aware of any new material changes that may adversely impact the Trust. The Trustees are also not aware of any material non-compliance with statutory or regulatory requirements or of any pending changes to legislation which may affect the Trust.

## 4. Events after the reporting period

There have been no adjusting events which have occurred after the financial year-end.

## 5. Investment policy and performance

The investment of the Foundation's assets is overseen by the Investment Committee on behalf of the board. The Investment Committee meets at least four times a year. It also receives periodic information and advice from the appointed asset consultants (AlphaWealth) as to the appropriate asset allocation targets and exposures as well as the choice of investment managers and funds to invest in. However the decisions on these matters remain the responsibility of the Investment Committee.

Scholarships are funded from two sources: The Endowment Reserves (which resulted from donors having contributed sufficient capital to fund one or more scholarships each year in perpetuity) and from the Annual Funding Reserves (which holds the aggregate of smaller donations that were sufficient only to fund part or all of one or more scholarships at a time over a limited number of years).

The Mandela Rhodes Foundation Trust (Registration Number : IT5164/2003) Annual Financial Statements for the year ended 31 December 2022

## **Trustees' Report (continued)**

## 5. Investment policy and performance

The Investment Portfolio comprises the Endowment Reserves and that portion of the Annual Funding Reserves that are not expected to be used in the short run. The balance of the Annual Funding Reserves is held in bank deposits.

In the case of the Endowment Reserves, the investment objective for these funds is to achieve a real return (i.e.: the nominal return less the inflation rate) of at least 4.5% p.a. over the long run within acceptable degrees of risk. This is in line with the Board's intention to maintain the Foundation's 'spend rate' from these Endowment Reserves (i.e.: the total expenses covered by the Endowment Reserves as a percentage of the Endowment Reserves) at or below 4.5% per year over time, thus ensuring the ability to sustainably support the Foundation's work and the scholarships funded from this source of donations in perpetuity.

The portion of the Annual Funding Reserves which is held in the Investment Portfolio is also invested under the same mandate as the Endowment Reserves.

The assets in the Investment Portfolio are invested in a suitable mix of equities, property, bonds and cash as well as in hedged or absolute-return funds. These investments are typically made via collective investment vehicles managed by leading asset managers. The array of funds and their respective investment managers is reproduced elsewhere in this document.

Since inception of the Investment Portfolio's mandate (in 2009) until end-December 2022, the Investment Portfolio has managed to match the investment objective, achieving an annualised return of 9.8% compared to the investment target of 9.8% p.a. This equates to a real return of 4.5% p.a. which matches the target of 4.5% p.a..

2022 was a difficult year in the investment markets and the investment return on the portfolio was -8.4%. There had been, before then, a steady trend of outperformance since the last year in which the portfolio had had a negative return for the year (f2016) but much of that advance was set back in 2022.

Nonetheless, there has been a good positive start to the year and the Investment Committee vigilant oversees its mandate and continues to monitor and adjust the investment portfolio to achieve the desired investment return into the future.

Annual Financial Statements for the year ended 31 December 2022

## **Trustees' Report (continued)**

#### 11. Auditors

PricewaterhouseCoopers Inc. continued in office as auditors for the Trust for 2022.

# Independent auditor's report

To the Trustees of The Mandela Rhodes Foundation Trust

## Our opinion

In our opinion, the financial statements present fairly, in all material respects, the financial position of The Mandela Rhodes Foundation Trust (the Trust) as at 31 December 2022, and its financial performance and cash flows for the year then ended in accordance with International Financial Reporting Standards.

#### What we have audited

The Mandela Rhodes Foundation Trust's financial statements set out on pages 11 to 38 comprise:

- the statement of financial position as at 31 December 2022;
- the statement of comprehensive income for the year then ended;
- · the statement of changes in equity for the year then ended;
- the statement of cash flows for the year then ended; and
- the notes to the financial statements, which include a summary of significant accounting policies.

## Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the *Auditor's responsibilities for the audit of the financial statements* section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

#### Independence

We are independent of the Trust in accordance with the Independent Regulatory Board for Auditors' Code of Professional Conduct for Registered Auditors (IRBA Code) and other independence requirements applicable to performing audits of financial statements in South Africa. We have fulfilled our other ethical responsibilities in accordance with the IRBA Code and in accordance with other ethical requirements applicable to performing audits in South Africa. The IRBA Code is consistent with the corresponding sections of the International Ethics Standards Board for Accountants' International Code of Ethics for Professional Accountants (including International Independence Standards).

# Other information

The trustees are responsible for the other information. The other information comprises the information included in the document titled "The Mandela Rhodes Foundation Trust Annual Financial Statements for the year ended 31 December 2022". The other information does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express an audit opinion or any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

# Responsibilities of the trustees for the financial statements

The trustees are responsible for the preparation and fair presentation of the financial statements in accordance with International Financial Reporting Standards and for such internal control as the trustees determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the trustees are responsible for assessing the Trust's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the trustees either intend to liquidate the Trust or to cease operations, or have no realistic alternative but to do so.

## Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether
  due to fraud or error, design and perform audit procedures responsive to those risks, and
  obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The
  risk of not detecting a material misstatement resulting from fraud is higher than for one
  resulting from error, as fraud may involve collusion, forgery, intentional omissions,
  misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit
  procedures that are appropriate in the circumstances, but not for the purpose of expressing
  an opinion on the effectiveness of the Trust's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the trustees.
- Conclude on the appropriateness of the trustees' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists

related to events or conditions that may cast significant doubt on the Trust's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Trust to cease to continue as a going concern. Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the trustees regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

#### Statement of Changes in Equity

#### Trust Fund

The capital represented by the initial donation stipulated in clause 4.1 of the Notarial Deed of Trust, together with such capital and revenue as may from time to time become vested in the Trustees for the purposes of this Trust, whether by reason of donation bequest, accrual or otherwise. The funds originated from the Rhodes Trust. Any additional funds received were applied to other reserves (refer below).

#### Rhodes Endowment Reserve

The Rhodes endowment reserve is the aggregate amount received from the Rhodes Trust, one of the Founders, and invested in the endowment investment portfolio (refer to note 12). This amount was transferred to other endowments in the prior years. The balance breakdown is as follows:

R R R
Rhodes Trust 129,918,264 129,918,264

2022

2021

#### Other Endowment Reserve

The other endowment reserve is the actual amount received from donors other than the Rhodes Trust and invested in the endowment investment portfolio (refer to note 8). The balance breakdown is as follows:

## **Accounting policies**

# 1. Significant accounting policies

The Mandela Rhodes Foundation Trust is a Trust established and domiciled in South Africa. The address of its registered office and principal place of business is The Mandela Rhodes Building, 150 St Georges Mall, Cape Town, 8001. Their principal activity is to contribute to the development of exceptional leadership capacity in Africa.

The annual financial statements have been prepared in accordance with International Financial Reporting Standards. The annual financial statements have been prepared on the historical cost basis, and incorporate the principal accounting policies set out below. They are presented in South African Rands.

The principal accounting policies applied in the preparation of these annual financial statements are set out below.

These accounting policies are consistent with the previous period, except for the changes set out in note 2 Changes in accounting policy.

## 1.1 Significant judgements and sources of estimation uncertainty

The preparation of annual financial statements in conformity with IFRS requires management, from time to time, to make judgements, estimates and assumptions that affect the application of policies and reported amounts of assets, liabilities, income and expenses. These estimates and associated assumptions are based on experience and various other factors that are believed to be reasonable under the circumstances. Actual results may differ from these estimates. The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and in any future periods affected.

## Key sources of estimation uncertainty

#### Financial assets through other comprehensive income

Financial assets at fair value through other comprehensive income are equity investments which are not held for trading and for which the Trust has made an irrecoverable election at initial recognition to recognise changes in fair value in other comprehensive income. These assets are classified as non-current.

#### Fair value of investments

The fair value of financial instruments traded in an active market is based on unquoted market prices as at balance sheet date.

The fair value of financial instruments which are unlisted are determined through estimates made.

## **Provisions**

Provisions are recognised when there is a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, and when a reliable estimate of the obligation can be made.

Annual Financial Statements for the year ended 31 December 2022

## **Accounting policies**

## 1.1 Significant judgements and sources of estimation uncertainty (continued)

#### **Critical accounting estimates**

#### **Government Grant**

Judgement was applied in determining when all contractual stipulations for the grant from the Western Cape Provincial Government for the purchase of the Bishopscourt land had been met.

#### **Donation Contracts**

Judgement was applied in determining when ultimate authority for the use of donation income transfers to the Foundation.

## 1.2 Property, plant and equipment

Property, plant and equipment are tangible assets which the Trust holds for its own use or for rental to others and which are expected to be used for more than one year.

An item of property, plant and equipment is recognised as an asset when it is probable that future economic benefits associated with the item will flow to the Trust, and the cost of the item can be measured reliably.

Property, plant and equipment is initially measured at cost. Cost includes all of the expenditure which is directly attributable to the acquisition or construction of the asset, including the capitalisation of borrowing costs on qualifying assets and adjustments in respect of hedge accounting, where appropriate.

Expenditure incurred subsequently for major services, additions to or replacements of parts of property, plant and equipment are capitalised if it is probable that future economic benefits associated with the expenditure will flow to the Trust and the cost can be measured reliably. Day to day servicing costs are included in surplus or deficit in the year in which they are incurred.

Property, plant and equipment is subsequently stated at cost less accumulated depreciation and any accumulated impairment losses, except for land which is stated at cost less any accumulated impairment losses.

Depreciation of an asset commences when the asset is available for use as intended by management. Depreciation is charged to write off the asset's carrying amount over its estimated useful life to its estimated residual value, using a method that best reflects the pattern in which the asset's economic benefits are consumed by the Trust. Leased assets are depreciated in a consistent manner over the shorter of their expected useful lives and the lease term. Depreciation is not charged to an asset if its estimated residual value exceeds or is equal to its carrying amount. Depreciation of an asset ceases at the earlier of the date that the asset is classified as held for sale or derecognised.

The useful lives of items of property, plant and equipment have been assessed as follows:

Item	Depreciation method	Average useful life
Buildings	Straight line	50 years
Office equipment	Straight line	6 years
Computer equipment	Straight line	3 years

The residual value, useful life and depreciation method of each asset are reviewed at the end of each reporting year. If the expectations differ from previous estimates, the change is accounted for prospectively as a change in accounting estimate.

Annual Financial Statements for the year ended 31 December 2022

## **Accounting policies**

## 1.2 Property, plant and equipment (continued)

Each part of an item of property, plant and equipment with a cost that is significant in relation to the total cost of the item is depreciated separately.

The depreciation charge for each year is recognised in profit or loss unless it is included in the carrying amount of another asset.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected from its continued use or disposal. Any gain or loss arising from the derecognition of an item of property, plant and equipment, determined as the difference between the net disposal proceeds, if any, and the carrying amount of the item, is included in profit or loss when the item is derecognised.

#### 1.3 Intangible assets

Intangible assets are initially recognised at cost.

Intangible assets are carried at cost less any accumulated amortisation and any impairment losses.

The amortisation period and the amortisation method for intangible assets are reviewed every period-end.

Acquired computer software licences are written off in full in the year of purchase. Development costs associated with the Trust's website are capitalised and amortised over its useful life.

#### 1.4 Financial instruments

Financial instruments held by the Trust are classified in accordance with the provisions of IFRS 9 Financial Instruments.

Broadly, the classification possibilities, which are adopted by the Trust, as applicable, are as follows:

Financial assets which are equity instruments:

• Designated as at fair value through other comprehensive income.

Financial assets which are debt instruments:

 Amortised cost. (This category applies only when the contractual terms of the instrument give rise, on specified dates, to cash flows that are solely payments of principal and interest on principal, and where the instrument is held under a business model whose objective is met by holding the instrument to collect contractual cash flows).

#### Financial liabilities:

· Amortised cost.

The financial instruments held by the Trust based on their specific classifications are shown in note 4 below.

All regular way purchases or sales of financial assets are recognised and derecognised on a trade date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the marketplace.

The specific accounting policies for the classification, recognition and measurement of each type of financial instrument held by the Trust are presented below:

Annual Financial Statements for the year ended 31 December 2022

## **Accounting policies**

#### 1.4 Financial instruments (continued)

#### Trade and other receivables

#### Classification

Trade and other receivables, excluding, when applicable, VAT and prepayments, are classified as financial assets subsequently measured at amortised cost (note 9).

They have been classified in this manner because their contractual terms give rise, on specified dates to cash flows that are solely payments of principal and interest on the principal outstanding, and the Trust's business model is to collect the contractual cash flows on trade and other receivables.

#### **Recognition and measurement**

Trade and other receivables are recognised when the Trust becomes a party to the contractual provisions of the receivables. They are measured, at initial recognition, at fair value plus transaction costs, if any.

They are subsequently measured at amortised cost.

The amortised cost is the amount recognised on the receivable initially, minus principal repayments, plus cumulative amortisation (interest) using the effective interest rate method of any difference between the initial amount and the maturity amount, adjusted for any loss allowance.

#### **Impairment**

The Trust recognises a loss allowance for expected credit losses on trade and other receivables, excluding VAT and prepayments. The amount of expected credit losses is updated at each reporting date.

The Trust measures the loss allowance for trade and other receivables at an amount equal to lifetime expected credit losses (lifetime ECL), which represents the expected credit losses that will result from all possible default events over the expected life of the receivable. The Trust applies the simplified approach.

#### Investments in equity instruments

#### Classification

Investments are classified as mandatorily at fair value through other comprehensive income. As an exception to this classification, the Trust may make an irrevocable election, on an instrument by instrument basis, and on initial recognition, to designate certain investments in equity instruments as at fair value through other comprehensive income.

The designation as at fair value through other comprehensive income is never made on investments which are either held for trading or contingent consideration in a business combination.

#### **Recognition and measurement**

Investments in equity instruments are recognised when the Trust becomes a party to the contractual provisions of the instrument. The investments are measured, at initial recognition, at fair value. Transaction costs are added to the initial carrying amount for those investments which have been designated as at fair value through other comprehensive income. All other transaction costs are recognised in surplus or deficit.

The Mandela Rhodes Foundation Trust (Registration Number : IT5164/2003) Annual Financial Statements for the year ended 31 December 2022

#### **Accounting policies**

## 1.4 Financial instruments (continued)

Investments in equity instruments are subsequently measured at fair value with changes in fair value recognised in other comprehensive income (and accumulated in equity in the reserve for valuation of investments), depending on their classification. Details of the valuation policies and processes are presented in note 5.

Dividends received on equity investments are recognised in surplus or deficit when the Trust's right to received the dividends is established, unless the dividends clearly represent a recovery of part of the cost of the investment. Dividends are included in investment income (note 17).

#### Investments denominated in foreign currencies

When an investment in an equity instrument is denominated in a foreign currency, the fair value of the investment is determined in the foreign currency. The fair value is then translated to the Rand equivalent using the spot rate at the end of each reporting period. Foreign exchange gains or losses arising on investments at fair value through other comprehensive income are recognised in other comprehensive income and accumulated in equity in the reserve for valuation of investments.

Details of foreign currency risk exposure and the management thereof are provided in the financial instruments and risk management (note 4).

## Impairment

Investments in equity instruments are not subject to impairment provisions.

## Trade and other payables

## Classification

Trade and other payables (note 13), excluding VAT and amounts received in advance, are classified as financial liabilities subsequently measured at amortised cost.

#### **Recognition and measurement**

They are recognised when the Trust becomes a party to the contractual provisions, and are measured, at initial recognition, at fair value plus transaction costs, if any.

They are subsequently measured at amortised cost using the effective interest rate method.

The effective interest rate method is a method of calculating the amortised cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial liability, or (where appropriate) a shorter period, to the amortised cost of a financial liability.

If trade and other payables contain a significant financing component, and the effective interest rate method results in the recognition of interest expense, then it is included in surplus or deficit in finance costs (note 18).

Trade and other payables expose the Trust to liquidity risk and possibly to interest rate risk. Refer to note 4 for details of risk exposure and management thereof.

Annual Financial Statements for the year ended 31 December 2022

## **Accounting policies**

## 1.4 Financial instruments (continued)

#### Cash and cash equivalents

Cash and cash equivalents are stated at carrying amount which is deemed to be fair value.

Cash and cash equivalents comprise cash on hand and demand deposits, and other short-term highly liquid investments with original maturities of 3 months or less and bank overdrafts that are readily convertible to a known amount of cash and are subject to an insignificant risk of changes in value. These are initially and subsequently recorded at fair value.

#### 1.5 Leases

A lease is classified as a finance lease if it transfers substantially all the risks and rewards incidental to ownership. A lease is classified as an operating lease if it does not transfer substantially all the risks and rewards incidental to ownership at every reporting date.

#### **Operating leases - lessor**

Operating lease income is recognised as an income on a straight-line basis over the lease term.

Initial direct costs incurred in negotiating and arranging operating leases are added to the carrying amount of the leased asset and recognised as an expense over the lease term on the same basis as the lease income.

Income for leases is disclosed under revenue in surplus or deficit.

#### Operating leases - lessee

Operating lease payments are recognised as an expense on a straight-line basis over the lease term. The difference between the amounts recognised as an expense and the contractual payments are recognised as an operating lease asset. This liability is not discounted.

Any contingent rents are expensed in the period they are incurred.

The Trust recognises revenue from the following major sources:

- General donations
- Government grants
- Specific purpose donations
- Rental income
- Interest income
- Dividend income

## **Donations and programme funding**

Revenue is recognised when the entity satisfies performance obligations under a contract with donors.

## **Government grant**

Government grant is only recognised as income once all contractual obligations relating to the non-depreciable assets have been met.

Annual Financial Statements for the year ended 31 December 2022

## **Accounting policies**

## 1.6 Revenue (continued)

#### Rental income

Rental income from operating leases are recognised on a straight line basis in the statement of comprehensive income.

#### Interest income

Interest income earned is recognised on a time-proportion basis. The entity calculates interest income by applying the effective interest rate to the gross carrying amount of financial assets other than credit-impaired assets. When a financial asset becomes credit-impaired the entity calculates interest income by applying the effective interest rate to the net amortised cost (gross carrying amount less the allowance for expected credit losses) of the financial asset. If the financial asset is no longer deemed to be credit-impaired, the entity reverts to calculating interest income on a gross basis.

#### **Dividend income**

Dividends are recognised in surplus or deficit, when the Trust's right to receive payment has been established.

#### 1.7 Translation of foreign currencies

## Foreign currency transactions

A foreign currency transaction is recorded, on initial recognition in Rands, by applying to the foreign currency amount the spot exchange rate between the functional currency and the foreign currency at the date of the transaction.

At the end of the reporting period:

- foreign currency monetary items are translated using the closing rate;
- non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rate at the date of the transaction; and
- non-monetary items that are measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined.

Exchange differences arising on the settlement of monetary items or on translating monetary items at rates different from those at which they were translated on initial recognition during the period or in previous annual financial statements are recognised in surplus or deficit in the period in which they arise.

Exchange differences arising on the settlement of monetary items or on translating monetary items at rates different from those at which they were translated on initial recognition during the period or in previous annual financial statements are recognised in surplus or deficit in the period in which they arise.

When a gain or loss on a non-monetary item is recognised to other comprehensive income and accumulated in equity, any exchange component of that gain or loss is recognised to other comprehensive income and accumulated in equity. When a gain or loss on a non-monetary item is recognised in surplus or deficit, any exchange component of that gain or loss is recognised in surplus or deficit.

Cash flows arising from transactions in a foreign currency are recorded in Rands by applying to the foreign currency amount the exchange rate between the Rand and the foreign currency at the date of the cash flow.

## **Notes to Annual Financial Statements**

## 2. Changes in accounting policy

The annual financial statements have been prepared in accordance with International Financial Reporting Standards on a basis consistent with the prior year.

## 3. New Standards and Interpretations

## 3.1 Standards and interpretations effective and adopted in the current year

In the current year, the Trust has adopted the following standards and interpretations that are effective for the current financial year and that are relevant to its operations:

Standard/ Interpretation:

Effective date:

Years beginning on or

after

• Amendments to IAS 16

01-Jan-22

#### **Notes to Annual Financial Statements**

## 4. Financial instruments and risk management (continued)

## Capital risk management

Consistent with others in the sector, the Foundation monitors its current ratio. This ratio is calculated as current assets divided by current liabilities.

The current ratio at 2022 and 2021 respectively were as follows:	2022	2021
Current ratio	95.37	16.04
	2022 R	2021 R
Current assets	129,737,783	20,839,168
Current liabilities	1.360.369	1.299.573

## Financial risk management

#### Credit risk

Credit risk arises from cash and cash equivalents and deposits with banks and financial institutions, as well as credit exposure to donors, including outstanding receivables. There is no independent rating of the credit risk for donors, so the Trust assesses the credit quality of the donors by taking into account its financial position, past experience and other factors.

The maximum exposure to credit risk is presented in the table below:	2022	2021
	R	R
Financial instrument		
Credo - offshore cash	60,601,015	2,836,535
Nedbank	67,513,578	17,612,169
Trade receivables	72,576	63,726
	128,187,170	20,512,429

# Liquidity risk

Prudent liquidity risk management implies maintaining sufficient cash and marketable securities and the ability to close out market positions.

The foundation does not have any long-term obligations, and has no utilised facilities with financial institutions.

The short-term payable are due within 1 year.

2022 Current liabilities	Notes	Less than 1 year

(Registration Number: IT5164/2003)

Annual Financial Statements for the year ended 31 December 2022

#### **Notes to Annual Financial Statements**

## 4. Financial instruments and risk management (continued)

#### Foreign currency risk

Foreign exchange risk arises when future commercial transactions (mainly donation income, endowment funds and investments) are denominated in a currency that is not the Foundation's functional currency (South African Rand). The Trust invests internationally and is exposed to foreign exchange risk with respect to the US dollar, Euro and the UK pound.

When there are extreme foreign currency fluctuations, the Investment Committee will consider appropriate hedging strategies.

The Trust has certain investments in foreign instruments, whose net assets are exposed to foreign currency translation risk, as highlighted below.

#### **Exposure in Rand**

The net carrying amounts, in Rand, of the various exposures, are denominated in the following currencies. The amounts have been presented in Rand by converting the foreign currency amounts at the closing rate at the reporting date:

	2022 (FC)	2022(ZAR)	2021 (FC)	2021(ZAR)
USD exposure:				
Non-current assets	20,747,298	330,919,397	27,598,493	440,195,964
Current assets	710,267	11,328,752	26,938	429,661
Net USD exposure	21,457,564	342,248,149	27,625,431	440,625,625
GBP exposure:				
Non-current assets	2,177,439	46,814,939	3,625,490	78,201,819
Current assets	-	-	51,033	1,100,781

	, , ,		-,,	
Euro exposure:				
Non-current assets	-	-	-	-
Current assets	72,246	1,304,768	71,961	1,306,086
Net Euro exposure	72,246	1,304,768	71,961	1,306,086
Exchange rates				
The following closing exchange rates were a	pplied at reporting	date:	2022	2021
Rand per unit of foreign currency:				
US Dollar			15.95	15.95
GBP			21.50	21.57
Euro			18.06	18.15

## Foreign currency sensitivity analysis

The following information presents the sensitivity of the Trust to an increase or decrease in the respective currencies it is exposed to. The sensitivity rate is the rate used when reporting foreign currency risk internally to key management personnel and represents management's assessment of the reasonably possible change in foreign exchange rates. The sensitivity analysis includes only outstanding foreign currency denominated amounts and adjusts their translation at the reporting date. No changes were made to the methods and assumptions used in the preparation of the sensitivity analysis compared to the previous reporting period.

Annual Financial Statements for the year ended 31 December 2022

#### **Notes to Annual Financial Statements**

#### 4. Financial instruments and risk management (continued)

	2022	2022	2021	2021
Increase or decrease in rate (2%): US Dollar	Increase	Decrease	Increase	Decrease
Post-tax surplus:	6,618,388	(6,618,388)	8,812,513	(8,812,513)
Increase or decrease in rate (2%): UK Pound				
Post-tax surplus:	936,299	(936,299)	1,586,052	(1,586,052)

The surplus is less sensitive to movements in exchange rates in 2022 than 2021 because of the lower exposure to foreign denominated assets in its overall portfolio. Foreign denominated assets comprises 45% (2021:58%) of the total investment portfolio.

#### Interest rate risk

The Trust has significant interest bearing assets and its income operating cash flows can be affected by changes in market interest rates. The Trust has no interest bearing payables or borrowings.

## Interest rate sensitivity analysis

The following sensitivity analysis has been prepared using a sensitivity rate which is used when reporting interest rate risk internally to key management personnel and represents management's assessment of the reasonably possible change in interest rates. All other variables remain constant. The sensitivity analysis includes only financial instruments exposed to interest rate risk which were recognised at the reporting date. No changes were made to the methods and assumptions used in the preparation of the sensitivity analysis compared to the previous reporting period.

The surplus is less sensitive to movements in exchange rates in 2022 than 2021 because of the lower exposure to foreign denominated assets in its overall portfolio. Foreign denominated assets comprises 45% (2021:58%) of the total investment portfolio.

## Price risk

The Trust is exposed to equity securities price risk because of investments held by the Trust and classified on the statement of financial position either as fair value through other comprehensive income. The Trust is not directly exposed to commodity price risk. To manage its price risk arising from investments in equity securities, the Trust diversifies its portfolio. Diversification of the portfolio is done in accordance with the limits set by the Trust.

## Price risk sensitivity analysis

The Trust is exposed to equity securities price risk because of investments held by the Trust and classified on the statement of financial position either as fair value through Other Comprehensive Income. The Trust is not directly exposed to commodity price risk. To manage its price risk arising from investments in equity securities, the Trust diversifies its portfolio. Diversification of the portfolios done in accordance with the limits set by the Trust. A change in the value of the equity securities of 5% attached to investments, with all other variables held constant, would affect other comprehensive income for the year as follows

Increase or decrease in rate (5%)
Investment: R 352,633,510 (2021:
R 269.614.132)

2022	2022	2021	2021
Increase	Decrease	Increase	Decrease
17,631,676	(17,631,676)	13,819,098	(13,819,098)

#### **Notes to Annual Financial Statements**

#### 5. Fair value hierarchy

The table below analyses assets and liabilities carried at fair value. The different levels are defined as follows:

Level 1: Quoted unadjusted prices in active markets for identical assets or liabilities that the Trust can access at measurement date.

Level 2: Inputs other than quoted prices included in level 1 that are observable for the asset or liability either directly or indirectly.

Level 3: Unobservable inputs for the asset or liability.

Levels of fair value measurements Recurring fair value measurements

Total investments	866,715,316	893,431,264

A listed security is a financial instrument that is traded through a public exchange, such as JSE or Nasdaq.

Upon disposal of these equity investments, any balance within the OCI reserve for these equity investments is reclassified within equity and is not reclassified to surplus or deficit.

# Disposal of marketable investments

The Trust has sold investments in certain marketable investments as these investments no longer suited the Trust's investment strategy. The shares were sold at their fair values with gains and losses transferred to retained surplus as per the table below.

Annual Financial Statements for the year ended 31 December 2022

#### **Notes to Annual Financial Statements**

9.	Trade and other receivables (continued)	2022	2021
	Categorisation of trade and other receivables	R	R
	Trade and other receivables are categorised as follows in accordance with IFRS 9: Financial Instruments:		
	At amortised cost	72,576	63,726
	Non-financial instruments	1,486,740	326,739
		1,559,316	390,465

There are no customer receivables. However, receivable arise from the timing of the donation being committed and the donation received in the bank account. The cash flows happen soon after the commitment is made by the donor and there is no significant delay in the expected future cash flows. No loss allowance is considered necessary due to the nature of the receivables and the expected payment to be received from the donors.

#### Exposure to credit risk

Trade receivables inherently expose the Trust to credit risk, being the risk that the Trust will incur financial loss if customers fail to make payments as they fall due.

The Trust's historical credit loss experience does not show significantly different loss patterns for different customer segments. The provision for credit losses is therefore based on past due status without disaggregating into further risk profiles. The loss allowance provision is determined as follows:

No loss allowance provision has been recognised as the credit risk is not considered significant

## Exposure to currency risk

Refer to note 4 for details of currency risk management for trade receivables.

#### Fair value of trade and other receivables

The fair value of trade and other receivables approximates their carrying amounts.

#### **Notes to Annual Financial Statements**

		2022	2021
10.	Cash and cash equivalents	R	R
	Cash and cash equivalents consist of:		
	Cash on hand	2,000	2,000
	Bank balances	1,910,374	1,495,943
	Nedbank - local cash	32,801,062	3,701,351
		34,713,436	5,199,294
	Total cash and cash equivalents	34,713,436	5,199,294

#### Credit quality of cash at bank and short term deposits, excluding cash on hand

The credit quality of cash at bank and short term deposits, excluding cash on hand that are neither past due nor impaired can be assessed by reference to external credit ratings (if available) or historical information about counterparty default rates:

## **Credit rating - Moody's Investor Services**

Nedbank Limited: Ba2	65,601,205	16,114,226
Credo Group: No rating available	60,601,015	2,836,535
	126,202,220	18,950,761

#### 11. Trust capital

# Capital account / Trust capital

Balance at beginning and end of year 6,728,943 6,728,943

#### Trust fund

The capital represented by the initial donation stipulated in clause 4.1 of the Notarial Deed of Trust, together with such capital and revenue as may from time to time become vested in the Trustees for the purposes of this trust, whether by reason of donation bequest, accrual or otherwise.

## 12. Funds and reserves

#### **Rhodes Endowment Reserve**

The Rhodes endowment reserve is the actual amount received from the Rhodes Trust, one of the Founders, and invested in the endowment. In 2006 a donation from Oxford University Press had been disclosed in the Rhodes Endowment reserve as at the time no separate reserve for other endowments had been arranged. This amount was transferred to other endowments in 2007.

#### **Other Endowment Reserve**

The other endowment reserve is the actual amount received from donors other than the Rhodes Trust and invested in an endowment.

Annual Financial Statements for the year ended 31 December 2022

## **Notes to Annual Financial Statements**

## 12. Funds and reserves (continued)

#### **Property Endowment Reserve**

The land and building reserve relates to two properties, the Mandela Rhodes Building ERF 3653 Western Cape and the Bishopscourt property ERF 56359 Western Cape. The Mandela Rhodes Building was donated to the Mandela Rhodes Foundation Trust by De Beers Consolidated Mines Limited at the formation of the Trust. The Bishopscourt property was funded by the Western Cape Provincial Government (R4,000,000) and Friends of Mandela Rhodes Foundation (USA) (R4,077,356). Refer to note 6.

#### **Property Maintenance Reserve**

Two donations were received in 2008, R6,000,000 from the Western Cape Provincial Government and R5,688,544 from Friends of The Mandela Rhodes Foundation (USA) and will be held to earn interest for the maintenance of the Bishopscourt property.

#### **Appropriation of Funds**

The entire capital and income of the Trust shall be applied solely towards the promotion of its stated objectives, and no portion thereof shall be paid or transferred, directly or indirectly, (whether by way of salary, dividend, bonus or otherwise howsoever) to any of the Trustees or any other person (save in the course of undertaking its public benefit activity), by way of surplus, distribution, or otherwise howsoever, provided that nothing herein contained shall prevent the payment in good faith to any person (including a Trustee) for:

- remuneration for services actually rendered to the Trust, having regard to what is generally considered reasonable in the sector and in relation to the service rendered;
- reimbursement of actual costs, expenses and commitments incurred on behalf of the Trust,

and provide further that no Donor, Trustee or relative of a Donor or Trustee, shall receive any benefits from the Trust Fund, except to the extent and in the circumstances envisaged by the clauses above, nor shall any of the Trustees have any rights in the property or other assets of the Trust by virtue of their being office bearers of the Trust.

#### Dissolution

In the event of the dissolution of the Trust, any assets remaining after all its liabilities have been satisfied shall not be paid or distributed to the Trustees but shall be transferred to a non-profit public benefit organisation/ organisations having similar objects and which has/ have been approved by the Commissioner in terms of the Income Tax Act No. 58 of 1962.

#### Investment reserve

The following table shows a breakdown of the balance sheet line item 'investment reserve' and the movements in these reserves during the year:

## **Notes to Annual Financial Statements**

## 12. Funds and reserves (continued)

			Investment reserve
	At 1 January 2021		138,277,726
	Revaluation - gross		142,331,464
	Fair value (gains)/losses released to retained earnings upon sale		(34,938,863)
	Net movement in reserve	-	107,392,601
	At 1 January 2022		245,670,327
	Revaluation - gross		8,046,399
	Fair value (gains)/losses released to retained earnings upon sale		76,223,163
	At 31 December 2022	-	329,939,889
		2022	2021
		R	R
13.	Trade and other payables

	49,061,352	(21,975,978)

# 21 Contingencies

In terms of the contract entered into between the Trust and the Western Cape Provincial Government, a liability of R3,000,000 would arise should the Bishopscourt property be sold. The Foundation has recorded that the property has been purchased to preserve the legacy of Mr Mandela, and it has no intention now or in the future of disposing of the said property.

Prescribed Officers include, J Sikuza and E Gerber.

## 23 Going concern

The Trustees believe that the Trust has adequate financial resources to continue in operation for the foreseeable future and accordingly the annual financial statements have been prepared on a going concern basis. The Trustees have satisfied themselves that the Trust is in a sound financial position and that it has sufficient liquid assets and together the cash flow forecast for the next 12 months to meet its foreseeable cash requirements. The Trustees are not aware of any new material changes that may adversely impact the Trust.

The Trustees are also not aware of any material non-compliance with statutory or regulatory requirements or of any pending changes to legislation which may affect the Trust.

The emergence and spread of the coronavirus has affected business and economic activity globally and is now impacting the market values of domestic and foreign funds (equity, bonds and hedge funds).

Pursuant to this, the Trustees have re-assessed the going concern principle, and is still satisfied that the trust is able to continue as a going concern for the foreseeable future as it has sufficient liquid assets (Refer to note 10) to meet its foreseeable cash requirements. Furthermore, the Trustees have the ability to amend the discretionary costs to ensure that these liquid assets are sufficient to meet its future commitments without negatively affecting the operations of the Trust. The Trustees' will re-assess, on a continuous basis, the Trust's 'spend rate' from these Endowment Reserves (i.e.: the total expenses covered by the Endowment Reserves as a percentage of the Endowment Reserves) and to ensure the ability to sustainably support the Trust's work and the scholarships funded from this source of donations in perpetuity.

## 24 Events after the reporting period

The Trustees are not aware of any material event which occurred after the reporting date and up to the date of this report.
